Enrolment – Parental Survey

Please take a moment to consider where you might be able to contribute to the College

Like most school communities, St Paul's College relies on its parent body for support, assistance and contributions to ensure that school life for our students is of the highest quality. Where parents are involved in a positive manner, students always benefit.

To this end, I would like to offer you the opportunity to nominate which areas of school life that you think that you can most effectively contribute to College life for your child, and indeed for all students at the College. Please be aware that any support given will require a current Voluntary Working with Children Check to have been completed and supplied to the College.
